

Shoe Ecommerce

1. Home page.

- 1) Navigation bar
- 2) Hero section
- 3) Auto sliding brand name(with brand icons)
- 4) Feature products
- 5) Why choose us
- 6) Footer
- 7) Review section(customer review)[optional]

Discuss navigation bar.

- Navbar will have website name/logo, wearables, about us, contact us, search bar(with icon), wish list(with icon), cart(with icon), user profile(with icon).
- Clicking on name/logo of the website will bring back to home page.
- Wearables will have total number of shoes available with filters and categories.
- About us will have the info about the website, brand we're selling, why trust us, why choose us, how we match customer's expectations, what makes us different from other ecommerce platforms.
- Contact us will have a form for user to complaint, contact details such as (email,phone,time when to call,whatsapp support/chat with us) and social

links(Instagram, twitter, youtube, facebook).[reference form bata]

- Search bar(with history).
- Wish list will have a price comparison table for the products we add in the wishlist with other ecommerce platform.
- Cart will also have price comparison table.
- User profile will show account, orders, sign out if logged in and if not then it'll show login, sign up.

Discuss Hero section

- Hero section will have 2 or 3 lines written in the left side about our website or anything about shoes eg.

Compare Smart. shop Smarter.

Find the best deals across Amazon, Flipkart, Myntra, and Ajio. All in one place.

In the right side of the hero section there will be 4 containers showing of top shoe brands displaying their most popular or trendy shoe pair. The background will have a funky animation which will move as we scroll through the hero section.

- by clicking on any brand shown in the hero section a brand product page will open which will be already filter out featuring only that particular brand eg. (if there are 4 brands Nike, Puma, Adidas, Converse and if the user clicks on puma then a new page will open and it'll show only puma products).

Discuss auto slider

- Auto slider will show all the brand we have with their name and logo and it will not be clickable.

Discuss feature products

- feature products will show only the trendy pairs and the most of shoes we have in stock and are needed to be sold first.

Discuss why choose us

- why choose us will have:
 - live comparison
 - price you won't find anywhere else
 - only trusted brands
 - secure payment
 - 24/7 support
 - Easy replacement

Discuss footer

- Normal footer (summary of the website), socials, collections, T&C, customer reviews, etc
